Art.-Nr. 2020102651

WEPOS Jacuzzi System Cleaner

Description

Concenmtrate. Disinfects and cleans piping systems and nozzles of jacuzzi, whirlpools and their tubs. Prevents the growth of bacteria and the formation of unpleasant odours. Thoroughly removes soap scum, grease deposits and limescale, and thus the nutritional basis for micro-organisms.

Effect:

Disinfects and cleans whirlpools and Jacuzzis. For piping and residual water disinfection. Prevents undesired bacterial growth and effectively removes germs, bacteria, fungi, legionella and other micro-organisms that may settle in difficult-to-access whirlpool areas. Prevents unpleasant odour formation. Eliminates soap residues, grease deposits and lime and therefore the basic source on which microorganisms feed.

Application:

For whirlpools and bathtubs and similar uses. For disinfecting piping and nozzle systems in whirlpools. Also for pools with an internal semiautomatic or fully automatic cleaning system.

Direction of use:

Fill the whirlpool with fresh water, so that the highest nozzle is completely covered. Add 100 mL Whirlpool System Cleaner and switch on the system. Let water run for 15 minutes. Drain and rinse with clean water.

In cases of whirlpools with integrated disinfection system, pour Whirlpool System Cleaner in the designated dosing container. Always observe product instructions.

Technical Informations

- Density: 1,0 g/ml
- PH: 6,0 – 7,5
- colour: clear
- smell: neutral

Safety instructions:

Keep out of the reach of children.

Packing unit

1000 ml-bottle (4 per box)

Please beware of: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance.
