## WEPOS Laminate Flooring Cleaner

### Description

Easily removes dirt, skid marks, heel marks and rubber marks as well as greasy and oily contaminants. Refreshes the coating and maintains the natural appearance of laminate. For full laminate, flat laminate and veneered flooring in the indoor area. Especially suitable for wall and ceiling panels.

### Effect:

Easily removes dirt, traces of wear, heel marks and rubber abrasion as well as greasy and oily soiling. Freshens up flooring and maintains the natural appearance of the laminate.

### Application:

For full laminate, laminated and veneered floors in interior areas. In particular, suitable for wall and ceiling panels.

Also for sealed cork and cork parquet.

### Direction of use:

Add 25 ml to a bucket of lukewarm water. Mix well. Wring out the cloth and wipe over the floor and allow to dry.

Subsequent wiping is not necessary.

In cases of stubborn soiling, increase the amount used, then wipe over again with a slightly damp cloth using clear water.

### Important:

Laminate is sensitive to moisture at the edge and in grooved areas. Cork floors are principally sensitive to moisture. Longer exposure to moisture can thus lead to swelling at the edges and to warping. For this reason, only wipe over when slightly damp and avoid leaving pools of water.

### Technical Informations

- Density: 1,01 g/ml
- PH: 9,5 – 10,5
- colour: clear liquid
- smell: fresh

### Safety instructions:

Keep out of the reach of children.

### Packing unit

1000 ml-bottle (4 per box)

Please beware of: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. The liability of WEPOS for defective products and any claims for damages whatever is limited to the purchase price of the products. WEPOS shall not be liable for any consequential damages. No other warranty or representation is made or implied.
