WEPOS Porcelain stoneware cleaner

Description

For convenient basic cleaning. Loosens and removes even stubborn general dirt, skid-marks from shoes, oil and grease films. The colour and structure of the material are optimised, the formation of streaks and cleaning smears is reduced and resoiling hindered. For polished and matt porcelain stoneware surfaces. Also for glazed tiles.

Effect:

Dissolves and removes also persistent dirt, oil, grease and fat, skid-marks from shoes. Specially formulated components ensure optimum floor care. Leaves no residues on the floor, and thus minimizes resoiling.

Application:

For all polished, matt, unglazed, glazed, vitrified clay tiles and porcelain stoneware. Special for tile floors and floors made of non-calcareous natural stone. This product is also ideally suitable for decorative gravel floors.

Direction of use:

First sweep the floor to remove loose dirt. Put 25 ml into one bucket (5 l) of warm water. Mix well. Mop the floor. Rinse the mop frequently in a separate bucket of clean water. Do not rinse the surface, but leave to dry naturally. Also applicable with a machine. In case of very persistent dirt use product undiluted and let it react for a short time using a brush.

Important:

To protect sensible porcelain tiles against oily and fatty spots we recommend to use the WEPOS Porcelain stoneware impregnation.

Technical Informations

- Density: 1,010 g/ml
- PH: 10 – 10,5
- colour: clear liquid
