## *WEPOS Tile & Stone basic Cleaner alkaline*

### **Description**

Powerful basic cleaner concentrate for the gentle removal of old floor care product residues, stubborn dirt, crusted on grease and yellowed patches. For all interior and exterior alkali-resistant surfaces. For tiles, ceramic floor panels, porcelain and natural stones. Also for plastic, PVC and rubber coatings. Ideal for basic cleaning before applying protection and care products.

### **Effect:**

Thorough, powerful and gentle removal of old floor care residues, polish films, wax and self-gloss layers, stubborn dirt, fat encrustations, yellowing and nicotine deposits. Soiling can be easily washed off with water.

### **Application:**

For all alkaline-resistant surfaces in interior and exterior areas. For tiles, ceramic floor tiles, stoneware and natural stones such as marble and granite, cotto, clinker, clay and terracotta tiles. Also for plastic, PVC and rubber coverings.

### **Direction of use:**

Depending on the degree of soiling, apply to the pre-moistened area pure or diluted up to 1:10 and distribute with a scrubber or sponge. Allow to work in briefly. Remove the dissolved residues with a scrubber and take up with a sponge, suction cleaner or wiping cloth. Wash again thoroughly with lots of water.

### **Important:**

Always check for surface compatibility before using. With polished surfaces, such as marble or limestone, only use basic cleaner diluted 1:5.

### **Technical Informations**

- Density: 1,01 g/ml
- PH: 10 – 10,5
- colour: transparent
- smell: fresh

### **Safety instructions:**

Irritant
